

Merge Cardio™

Best in KLAS for
Cardiology in 2017

KLAS™ gathers data from thousands of healthcare professionals and clinicians on software, services and medical equipment to create reports, trends and statistical overviews. In the *Best in KLAS Software & Services Report for 2017*, **KLAS named Merge Cardio™ as Best in KLAS for cardiology for the fourth year in a row**. Find out why so many choose Merge Cardio as their image and information management system.

System Consolidation

“Merge Cardio is easy to use, and most of the templates for structured reporting are ready to go and do not require a lot of build. We have been working with Merge for a few years now and have consolidated to one system for cardio.”

EHR Integration

“The integration between Merge Cardio and our EMR system has been really good. That has been a plus for both the physicians and the IT team.”

Reporting Process Automation

“We use Merge Cardio with Merge Hemo, and the integration has been seamless to the point that some of our providers do not know the line between the two systems.”

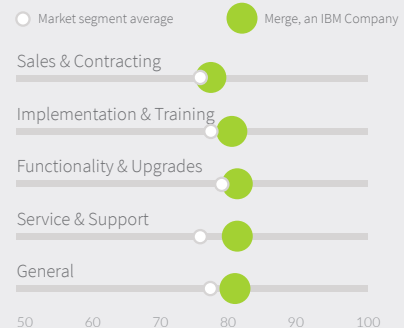

How MERGE STACKS UP AGAINST THE COMPETITION

How do vendor solutions **compare?**

	Score	Trend	Confidence
1. Merge, an IBM Company, Cardio	80.7	+2%	✓✓✓
2. Philips Xcelera	77.5	+5%	✓✓✓
