

Merge Hemo™

KLAS Category Leader for Hemodynamics in 2017

KLAS™ gathers data from thousands of healthcare professionals and clinicians on software, services and medical equipment to create reports, trends and statistical overviews. In the *Best in KLAS Software & Services Report for 2017*, **KLAS recognized Merge Hemo as the Category Leader for hemodynamics for the sixth year in a row.** Find out why so many choose Merge Hemo as their cath lab solution.

User-Defined Templates

“We have found Merge Hemo to be very flexible. The system allows us to use user-defined templates, and that eliminates redundancy. It does a great job of efficiently streamlining our cath lab workflow.”

Elegant Touch Screen Interface

“There are several benefits to having this system, such as the firmware usability. Also, the product is very user friendly. It is easy to teach employees how to use it because we can use either a touch screen or a mouse.”

Concurrent Access to Patient Studies

“Merge Hemo is very robust and customizable. If we need to log any extra details, we can just make a few minor modifications to the system and have those details in the system.”

How Merge Stacks Up Against the Competition

HOW DO **CARDIOLOGY HEMODYNAMICS** SOLUTIONS COMPARE?

	Score	Trend [†]	Confidence
1. Merge, an IBM Company, Hemo	86.6	0%	✓✓
2. McKesson Cardiology Hemo	81.1	+4%	✓
3. Philips Xper Hemodynamics	75.1	0%	✓✓
4. GE Healthcare Mac-Lab	72.2	-2%	✓

[†] Trend does not include the 2015/2016 Best in KLAS score.

HOW DO THEY **SCORE?** IN FIVE KEY PERFORMANCE CATEGORIES

SALES & CONTRACTING	90.2
IMPLEMENTATION & TRAINING	88.1
FUNCTIONALITY & UPGRADES	86.6
SERVICE & SUPPORT	82.6
GENERAL	87.6
